---

Hi Erin,

Following up on a case we briefly discussed earlier this year RE a mine in CO interested in expanding their operation, claiming wetlands in the area are exempt from CWA regulation under the WTE.

The forwarded mail reflects the most recent development - the applicants have submitted a revised WD report (instructions for downloading are below), and their lawyer provided another legal analysis. The district is also planning a site visit in about 2 weeks - and they have invited the region to join. If you still have access to our G drive I can point you to the directory where all this information is stored.

Anyhow - just wanted to keep you informed. I will also be forwarding you an invitation to a meeting we have with the corps next week (the region is leading this effort - we were invited to participate) - in case you are available and interested in participating.

Let me know if you have any questions or want to discuss this further,  
Hadas
